Get creative with skylights

SEE clover, starfish, geometric or custom-made designs in the ceiling with Skydome's new Skyform skylights.

Skyform skylights can be used to create interesting design effects or to give a room character. They are ideal for children's rooms or contemporary living areas.

The skylight frames come in different sizes and can be made in any colour to match the interior or to create a feature.

Each Skyform skylight includes Skyguard glazing which creates a weatherproof seal, blocks out 99 per cent of UV rays and reduces heat. All products are made to suit Australian conditions and can be installed in new and existing buildings. Skylights are also energy efficient, as they reduce the use of lights during the day.

Visit skydome.com.au or call 13 14 24.
